

# Our Services

Taktikon assists companies within the travel- and hospitality industry **maximise revenue by creating profitable commercial strategies.**

Our approach results in an optimised Revenue- and Distribution landscape.

We use our international experience and network to identify new opportunities for our customers.

## Revenue Management Outsourcing:

Revenue Management Outsourcing is an alternative to hiring a Revenue Manager on site. You gain direct access to our Revenue Management experts who become part of your commercial team.

Our outsourcing services cover both handling daily pricing and managing all your distribution platforms, including your own booking engine.

Taktikon's **Revenue Management Outsourcing** allows you to control cost and provides premium expertise in profit optimisation. This means that you get access to a highly skilled expert working with your commercial team ensuring the application of Revenue Management and Profit Management principles.

## Taktikon Revenue audits

Revenue Audit is aimed at finding your unique revenue opportunities. The evaluation includes Review Scores, your Revenue Management- and Commercial Organization, Pricing Strategies and Distribution opportunities. The Revenue Audit is partly carried out on site and result in a report with specific objectives applicable procedures, structure, pricing and revenue opportunities.

# Our Services

## Taktikon System audits

Our system auditors assist clients with finding the right technology supplier for their current and future needs. System Audits determine the current technology setup, find gaps in systems to bridge, and ensures that all solutions are well installed and integrated for optimal use of the resource. During the whole process of a System Audit, we are always looking at the specific needs of the customer. Even though our method always is the same, the outcome of our Audits are always different, as different operations properties have specific and different needs
